Hello and welcome to the fourth bundle release of Minami's Chibi Miku-san comic. It took a while before I got to finish working on this bundle because I just got lazy.

In this bundle three more characters have finally appeared, first is Capybara-san the huge brown rodent looking animal that appeared in Chibi Miku #35. The next two are Kaito and Meiku, they were the first Vocaloids that came out on the market preceding the Vocaloid 2.0 system that was Hatsune Miku. The Vocaloid system was first developed for Yamaha and then later applied by Crypton Future Media to their Vocaloid Meiko and Kaito.

I hope you enjoyed reading!
